

An invitation

Rotary invites you to apply to be a Rotary Youth Exchange Student (RYE) for 2025.

Our Exchange programme is one of the oldest in the world. Each year over 9,000 students exchange around the world. By sharing your own culture and embracing a new one, you help foster global understanding and personal development.

RYE students gain a new perspective, become more resilient and mature whilst experiencing a whole new culture. Employers are always looking for candidates with something special and putting Rotary Youth Exchange on your CV definitely helps you stand out!

Students attend school in their local country and live with host families (no board money paid) where they are immersed into a new culture through support from Rotarians, friends and family. Students are considered part of the family and welcomed with open arms!

Students depart in January 2025 and return one year later!
